

Nuovo Albums layout measurements

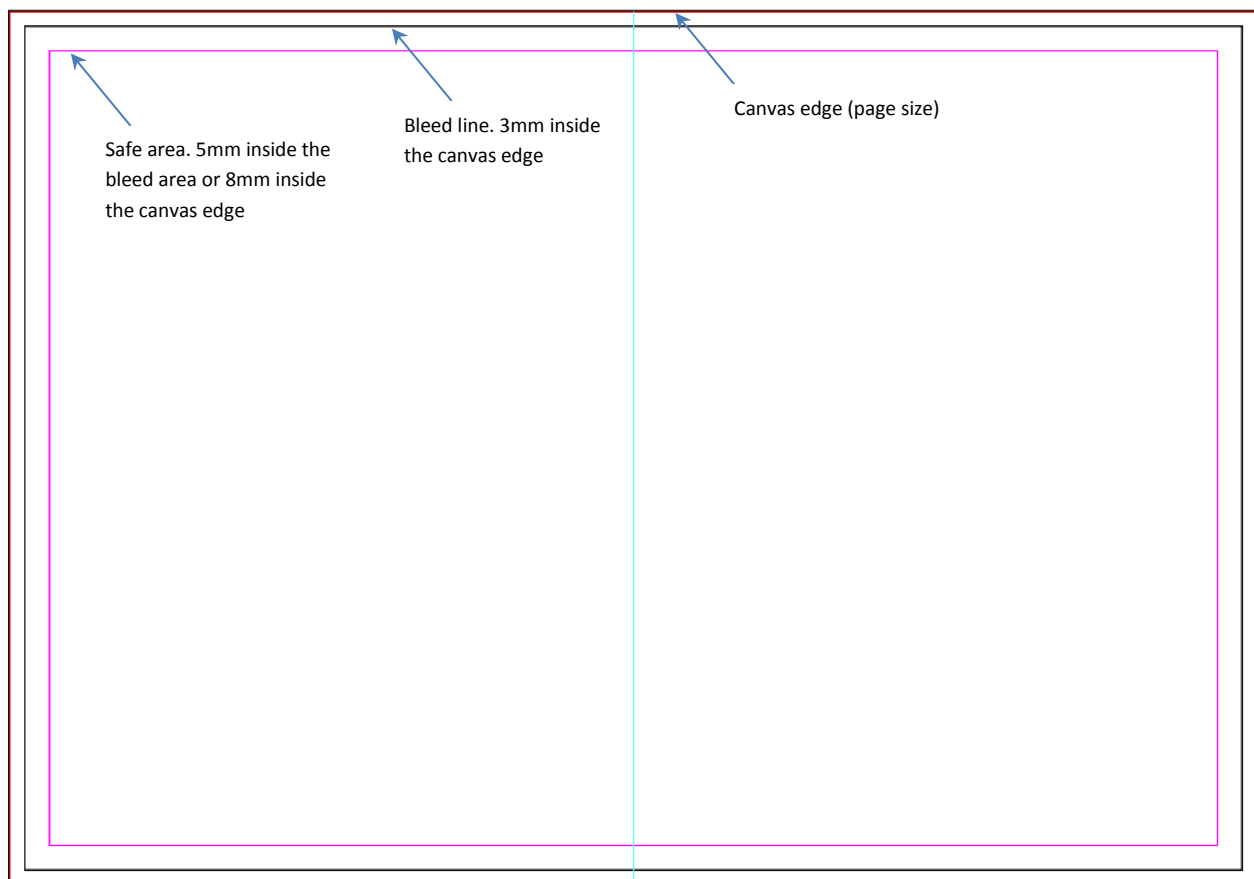

If you decide to prepare files in the software other than Fundy you will need to use following guidelines.

Dimensions of the canvas should be the same as the size of your selected album. For example, the dimensions of a double spread for a 10x14" landscape album will be 28x10" (610x254mm). The dimensions of a single page will be 14x10" (356x254mm).

Photos and background images must be extended to the edge of the canvas if you want them printed to the edge of the page.

Please allow for 3mm bleed on each side of the image - this area will be trimmed off.

We also ask to place your images within safe area, please place important content such as text, logos and important image subjects within 5mm inside the bleed area.

If you prepare your files in Adobe Photoshop or InDesign you can download templates [here](#).
